SABIÑÁNICO (HUESCA)

A CYCLING FESTIVAL IN SPAIN

QUEBRANTAHUESOS

THE PYRENEES' CHALLENGE

After the cancellation and limitation of capacity from the Covid-19 pandemic and the adverse weather conditions that forced the postponement of the June edition, finally the XXXI edition of the Marcha cicloturista Ibercaja Quebrantahuesos by TotalEnergies was held on 24 September.

In a normal situation, with more than 11.000 cyclists each year and receiving more than 15.000 requests of participation, the Quebrantahuesos is considered the most popular and prestigious cycling event in Spain. It is the largest cyclo sportive of the Pyrenees, one of the most numerous of the planet and one of the few included in the UCI Golden Bike series. In 2023 it will celebrate 32 editions and the organisation continues to work on improving and developing Sabiñánigo's cyclo sportive.
